The TLC Homestead TroopAdours debut – an instant success

Ron Embry and the TLC TroopAdours - an overnight success story

Inspired by the success of “The Supper Club” a group of resident’s families and TLC Team members at TLC Aged Care’s Homestead Estate got together recently and formed the “TLC TroopAdours” – a merry band of singers.

Under the direction of choir master Mr. Ron Embry and The Homestead’s Lifestyle manager Jacqui Marshall the TLC TroopAdours organized song books, set up and attended rehearsals and went about preparing for their debut performance.

This all came together recently at The Homestead’s May “Supper Club”. The Supper Club is a monthly family get together where families, friends and the TLC Team just enjoy some time together with music, singing and, of course, some supper.

The inaugural performance of the TLC TroopAdours was a smashing hit and they’re still being talked about.

TroopAdour leader Ron Embry said “This is fantastic. We have only had two rehearsals and we are already performing in public. This is so much more than just a few lively minutes of entertaining – this group has somehow captured the very essence of The Homestead Estate. One big, extended family living, playing and having fun together”. And the TroopAdours have big plans for the future. “Who knows... we might even release a CD one day” said Ron.

TLC Aged Care’s company founder and Chairman Dr John Leaper is delighted to see this all happening. “Both of my parents lived at The Homestead Estate and this notion of gathering together as a family to sing or simply enjoy the music was a big part of their lives and is still an important part of lives today”. “It is just too easy to just sit back and watch television and so we need enthusiastic people on our teams to inspire and encourage activities such as these”

Fran Durham has been the manager of The Homestead Estate for 12 years and is equally proud of her team and family. “We continue to look for new and fun ways to ‘be family’ and this is perfect. One of our plans for the future is to host our own ‘Morning Melodies’ and with that invite community groups out to visit.
